

PARTY MANIFESTO

“PUTTING THE ‘GREAT’ BACK INTO BRITAIN!”

The National Socialist Reform Party 2019 General Election Manifesto

Election Tagline: Universal / Connecting The Nation / One United Kingdom

Introduction

The United Kingdom of Great Britain and Northern Ireland has been in decline ever since the end of the second World War (You could argue since the start of the 20th Century). Gone are the days of great politicians and prime ministers of the Victorian Age, we have had to suffer with incompetent monkeys for the past 50 years.

Well, we say no more! Introducing The National Socialist Reform Party. We are a party dedicated to putting the 'United' back into 'United Kingdom', 'Great' back into 'Great Britain'. Under us, the UK shall see most radical changes since Robert Peel in the 1830's/40's – Changes that are much needed and long overdue.

The National Socialist Reform Party may be new but what makes us stand out from the rest is our determination and above all else, we say and do what we say. We don't cover up, we don't have any hidden agendas. We put out our aims and that is what we will do. Some aims may take longer than what we want, but we will look to set the foundations for them within our 5 five years.

It's time to start for the public to start trusting politicians and the government again. We will work towards a better Britain rather than taking from the country to better ourselves (Like the previous governments have done). No more putting bus lanes on motorways, holding the US' hand in wars (because they can't fight a war on their own... anymore), no more government cuts, no more expense scandals, no more members of the public interfering with government affairs lying to get his own views across through false facts and propaganda [Farage].

The one issues we haven't outlined is 'Brexit'. Are we for or against it? Well we are a pro-EU party, but we will look at ways to keep both 'Remainers' and the 'Exiters' happy. Obviously, the old deals haven't been acceptable. We are the only party who will make sure any deal will be the best for the UK and UK people! We are not about to sell our country to foreign nations just to ensure we get 'good' trade deals'. This 'Brexit' is a headache and something the Conservatives hadn't thought through. In fact, Nigel Farage – who has constantly been a pain the arse over the UK leaving the EU – hadn't planned to leave – It's his idea, but he just wants to leave, he's clueless on how to go about that though. We will make a fresh start and bring one final 'deal or bust' option to the table – a new, clean deal. If it gets the go ahead we leave, not we stay. This has to be sorted as soon as possible. This has been a total disaster from Day 1 and everyone is sick of this. Let's put this to bed once and for all – even if it means upsetting a few people (mainly Farage). This 'Brexit' mess is what we get for people listening to this idiot Farage – who in turn listens to that fat lump of crap Donald Trump!

The National Socialist Reform Party are the People's Party – YOUR PARTY! Make your vote count! It's time for change! Vote for The National Socialist Reform Party!
